Project Name	FinRelief AI – AI Powered Debt Relief & Financial Recovery Platform
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A borrower struggling with multiple overdue loans.	Settle my outstanding debt for an amount I can actually afford.	I don't know what settlement amount a lender would realistically accept.	I don't have access to financial expertise or negotiation experience.	Anxious and unsure where to start.
PS-2	A borrower behind on EMI payments due to reduced income.	Understand how serious my financial situation really is.	I can't tell if my debt load is manageable or a red flag.	There's no simple way to see my EMI ratio, debt-to-income ratio, or overall financial health in one place.	Overwhelmed and in the dark about my own finances.
PS-3	A borrower who wants to negotiate directly with a lender.	Write a professional settlement request letter.	I don't know how to phrase it persuasively or what tone to use.	I'm not confident in my written negotiation skills.	Hesitant to reach out to the lender at all.
